ALL PLASTICS #1—7

We now accept all plastic containers #1 thru 7. We do not accept Styrofoam. Please remove lids as they cause problems when we are processing material. We also accept grocery, newspaper & dry cleaning bags. They must be put in a single bag and tied closed. This is important for sorting purposes and so that they are not blowing around your neighborhood. Please no other types of bags, if other types are included, they will all be left for you to dispose of. Again, no Styrofoam please.
